

COMPANY PROFILE · 2026

INTELLIGENCE. TRANSFORMATION. IMPACT.

ENTERPRISE AI · INTELLIGENT AUTOMATION · ERP + AI · TRAINING

WHO WE ARE

PRIVATE ENTERPRISE AI FOR SAUDI ORGANISATIONS

Fast Ibex Technology is the technology company of Fast Ibex, headquartered in Riyadh. We design, build and run enterprise AI and intelligent automation for organisations across the Kingdom and the GCC, in Arabic and English, with your data under your control.

WHERE WE WORK

Riyadh

HEAD OFFICE

■ OUR PROPOSITION

Private Enterprise AI & Intelligent Automation for Saudi Organizations.

Private

Built to keep your data, prompts and documents under your control.

Arabic first

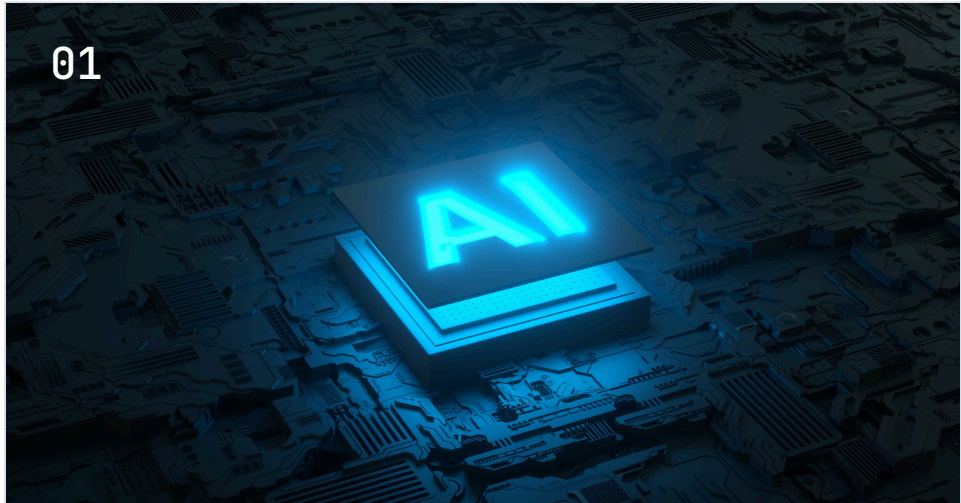

Assistants and documents that read and write natural Arabic, and English.

Measurable

Every project starts from a business process and ends with a number: hours saved, errors avoided.

WHAT WE DO

THREE PRACTICES, ONE GOAL: WORK THAT RUNS ITSELF

Enterprise AI & Automation

AI assistants, knowledge systems and agents that take repetitive work off your teams.

ERP + AI Digital Transformation

ERP, automation and AI together, with the business process redesigned around them.

Corporate AI & Technical Training

Programmes that help leaders and teams use AI well, safely and every day.

01 · ENTERPRISE AI & AUTOMATION

AI THAT WORKS INSIDE YOUR ORGANISATION

We deliver Arabic/English AI solutions on your own documents, systems and workflows.

■ Knowledge systems
(RAG) on your
documents

■ Document processing

■ Customer-service
agents

■ HR assistants

■ Procurement
automation

■ Invoice processing

■ ERP / CRM automation

■ Workflow agents

■ Management reporting

HOW AUTOMATION LOOKS

FROM AN EMAILED INVOICE TO YOUR ERP, WITHOUT RETYPING

ILLUSTRATIVE EXAMPLE

01

Receive

The invoice arrives by email or upload.

02

Read

AI extracts supplier, items, totals and VAT.

03

Check

Rules match it to the purchase order; exceptions go to a person.

04

Post

The approved invoice is entered in the ERP.

05

Report

Managers see the totals and delays on a live dashboard.

02 · ERP + AI DIGITAL TRANSFORMATION

NOT JUST AN ERP IMPLEMENTATION

We combine four things most projects keep apart, so the system fits how your business should run.

01

ERP

The core system for finance, procurement, inventory and HR.

02

Automation

Routine steps run on their own, end to end.

03

AI

Assistants and agents that read, check and report.

04

Process redesign

We fix the process before we automate it.

PLATFORMS Odoo · Microsoft and Oracle planned

03 · CORPORATE AI & TECHNICAL TRAINING

TEAMS THAT KNOW HOW TO USE AI, EVERY DAY

01

AI for leaders

Where AI pays off, what to start with, and how to measure it.

02

AI at work

Hands-on sessions for staff: everyday tasks with AI assistants.

03

Technical tracks

For IT teams: building assistants, knowledge systems and automation.

04

Arabic and English

Delivered on site or online, in either language.

■ HOW WE WORK

FOUR STEPS FROM IDEA TO RESULTS

01

Discover

We map one process and agree the result to aim for.

02

Pilot

A working pilot on your real data, in weeks.

03

Deploy

We roll it out, connect your systems and train your team.

04

Support

We monitor, improve and add the next process.

WHY FAST IBEX TECHNOLOGY

WHY ORGANISATIONS CHOOSE US

01

Arabic first

Built for Saudi teams and documents,
not translated later.

02

Private by design

Your data stays under your control.

03

Process + AI

We start from the business process, not
the tool.

04

Part of Fast Ibex

One Saudi group, one standard across
every activity.

LET'S START WITH ONE PROCESS
